

Impact of 2016 / 2017 Sport Premium Funding Spend

- A Change4Life club was successfully delivered again this year, targeting year 3 pupils who would not otherwise attend an after school sports club.
- EYFS pupils were targeted this year, as previous years have offered nothing to our younger children, despite Physical Development being a prime area. This year the children took part in “Yoga” sessions, with 100% pupil participation (a 100% increase from previous years). Money was used to employ a “Kalma Baby” yoga instructor. This then led us to use further funding to buy our own yoga DVD’s and mats, so that teachers can continue to teach yoga themselves now.
- The interests of pupils were considered this year, as year 5 asked if they could be taught how to play Rugby. A specialist Tag Rugby coach came in to teach the class, engaging several “harder to reach” children. Both boys and girls enjoyed the coaching so much that they asked if the coaching could be prolonged. This then led the whole class to take part in a Tag Rugby Festival alongside other schools.
- 62.5% of pupils participated in a Sainsbury’s School Games sports festival this year (Nursery, Reception, Year 2, Year 3 and Year 5). This is a big increase on previous years (37.5% 2014/15, 42.85% 2013/14). Next year, we aim to have 100% participation from pupils.
