

## Impact of 2021 / 2022 Sport Premium Funding Spend

- This year, we invested in lots of new playground and sport equipment for break times and P.E. lessons. This included various different balls, foam Frisbees, maths-based games and a selection of basic equipment used for P.E. lessons. This has enabled **all our pupils to be more physically active and engaged during break times and improved behaviour outside.**
- For the ninth year running St Bede's, we used some of our Sport Premium funding to participate in the events (including alternative events) run by South Tyneside School Sport Network - this **enabled our pupils to engage in extra physical activities and gain experiences in competitive scenarios.**
- Our Year 6 pupils were given the opportunity to **visit Hawkhurst Scout Activity Centre, where the pupils participated in canoeing, abseiling and climbing – an experience that many would be unlikely to take part in outside of school.**
- All pupils from Nursery to Year 6 **participated in competitive Sports Days competing in several different sports.**
- Pupils from Years 3–6 were also offered **lunchtime coaching** from South Shields Football Club, **taking part in activities such as bench ball, basketball and football.**
- Pupils from years Reception to 6 were offered a range of after-school clubs, **which enabled our pupils to engage in extra-curriculum physical activities, which has promoted fitness in our pupils.**
- Pupils from Year 5 and 6 were offered the opportunity to join the school football team and participated in weekly training sessions and also competed in the Gidney football league, **enabling our children to have the opportunity to compete in competitive sports.**
- As a way to raise money for cancer research, children were invited to wear a football shirt as part of 'Football Shirt Friday' and participated in a range of footballing activities throughout the day.
